

Proven Accuracy & Performance With Long Battery Life

Used globally by corrections agencies
for monitoring & offender management

Buddi's One-Piece Smart Tag® seamlessly monitors locations, indoors to outdoors, reliably and accurately. The smallest, lightest, one-piece GPS available has a long-lasting battery which can be charged wirelessly using the discreet on-body charging device.

Features & Benefits

One of the smallest and lightest devices available—only 4.4oz fully assembled

Tracking capabilities using GPS, cell tower, triangulation and Wi-Fi signals

Up to 48-hour battery life on a single charge along with on-body charging capabilities

Simple, no-tool installation with durable, straps that do not require cutting

On-board zone storage as well as optional beacon for fast zone breach notification

Waterproof device that can store and forward data after loss of cellular signal

Fast, On-Body Charging

Convenient & Flexible Charging for Clients Anytime

The Buddi On-Body Charger (OBC) Allows for Non-Tethered Charging

The fast charging OBC includes an AC power dock that can be charged anywhere, anytime. With the ability to snap the OBC onto the GPS device, agencies can virtually eliminate excuses for not maintaining a full charge. The OBC is so flexible, that it can even be worn in the shower with its waterproof design.
