

Combining Simplicity with Reliability & Accuracy

A versatile, one-piece GPS monitoring
bracelet designed for today's technology

The **Omnilink® OM500** was designed to track—and communicate with—all types of participants 24/7, both indoors and outdoors. The OM500 signals offenders using vibrations, sound, and audible voice messaging while receiving acknowledgement from the participant in return.

Features & Benefits

-  Extensive battery life—over 72 hours of tracking even on the most aggressive rate plan
-  Custom, on-demand audible voice messages sent directly to the device
-  Cut-free strap design for installation that virtually eliminates false strap tamperers
-  Waterproof and submersible as well as dishwasher safe and temperature resistant
-  Rapid battery charging in as little as 30 minutes to complete a full charging cycle
-  Available on both the Verizon® and AT&T® 4G LTE nationwide networks

Simple, Reliable, Accurate

Industry Leading Battery Life & Charging Solution With Best-in-Class Strap Design

- Robust, magnetic charger allows for 360° swivel
- Rapid charging cable achieves full charge in as little as 30 minutes
- Strong, affixed strap available in two sizes & cut-resistant version
